

Endpoint Detection & Response

KCi Services: EDR

- EDR is essential for real time threat detection and swift incident response, allowing your business to quickly address suspicious activities. It provides valuable data analysis and forensic capabilities, aiding to understand and mitigate cyber attacks effectively. EDR supports compliance efforts by ensuring robust security measures and in place.
- This security solution will monitor endpoint devices for bugs and suspicious activities which enables instant threat detection.

EDR will help you:

- Detect threats instantly
- Enhance visibility
- Meet security requirements
- Trace the origin and impact of breaches
- Undertsnad your security vulnerabilities
